

User Stories

For the User:

As a user, I want to enter my username (so that I can access my personal account).

As a user, I want to enter my password (so that I can verify my username and account).

As a user, I want to verify that my username and password are correct (so that I can know that I entered all my information correctly).

As a user, I want to go to the next page and implement my schedule (so that my information can be properly stored).

As a user, I want to select the location of my next class (so that my options can be updated based on where my building is).

As a user, I want to type in my class title (so that location can know where my class will be).

As a user, I want to select the time of my class (so that the parking lots can be updated based on what time my class is so I can get an idea of what my best choice will be).

As a user, I want to add my class (so that I can be taken to the next page and given my options on where I could park).

As a user, I want to view my schedule (so that the nearest parking lot to my class can be added).

As a user, I want to be able to logout (so that when I don't need the webpage anymore I can later login).

For the Guest:

As a guest, I want to click "continue as guest" (so that I don't have to create an account and can be taken to the next page).

As a guest, I want to select my time of arrival on campus (so that the application has an idea of what lots will have the most spaces at my time of arrival).

As a guest, I want to select how long I am planning on staying on campus (so that I can best choose where I want to park depending on the classes that I have).

As a guest, I want to verify that I have made all the selections necessary (so that all necessary and required information is properly entered).

As a guest, I want to click "continue" (so that I can be taken to the next page where the parking lot information will be displayed).

As a guest, I want to see the display of the map (so that I can see where I am located and where the nearest parking lot is depending on the building I need to get to).

For the New User:

As a new user, I want to create an account (so that I can access the Parking Waze application much more easily).

As a new user, I want to type in my email (so that my email can be associated with my account).

As a new user, I want to type in my full name (so that I know that my account will be associated with me).

As a new user, I want to type in a new username (so that I can be uniquely identified within the computer system).

As a new user, I want to type in a new password (so that I can secure my account and make sure that only I can access my information on Parking Waze).

As a new user, I want to verify that my password has met all the requirements (so that I can have the correct information in order to successfully create my account).

As a new user, I want to submit this information (so that I can create my account and be able to access it later on).

As a new user, I want to login in with my new account (so that I can verify that all my account was created).
